

Job Title

Jr Salesforce Developer

Short Description

As a Salesforce Developer, you'll play a vital role at Associated Credit Union. We are looking for an individual that can help us continually improve/enhance our Salesforce platform, create value for internal users and enhance the member experience. The right candidate can potentially become the lead developer as we build out our ecosystem in the coming years.

Full Description

Position Description

Department: Enterprise and Data Analytics
Reports to: AVP - Enterprise and Data Analytics
Supervises: None
Skill Levels: Junior to Mid Level

Position Purpose

Associated Credit Union is always looking for qualified individuals who want to work in the financial services industry. ACU is one of the nation's top credit unions with over \$2.2 billion in assets, 19 branch locations, and 22 ITMs (interactive teller machines).

As a Salesforce Developer, you'll play a vital role at Associated Credit Union. We are looking for an individual that can help us continually improve/enhance our Salesforce platform, create value for internal users and enhance the member experience. The right candidate can potentially become the lead developer as we build out our ecosystem in the coming years.

Essential Functions & Core Duties

Responsibilities

- Manage the development and implementation of enhancements under the direction of the AVP of Enterprise and Data Analytics
- Identify and validate the key business requirements to ensure accurate development
- Ability to take on Developer and Salesforce Admin responsibilities
- Product enhancements and bug fixes
- Working with MuleSoft API integrations, currently with Symitar and Meridian Link with potential others to be added in the future.
- Knowledge of batch processes
- Testing (unit and systems) and debugging
- Striving towards coding best practices and data quality

- Contributing to technical documentation
- Helping to guide the overall enterprise by providing effective input
- Help in reviewing work done by other SF Admin to ensure there are no issues

Other Duties & Responsibilities (Optional) Work Ethic:

- A proactive attitude to Salesforce enhancements
- A good work ethic, ready to absorb best practices from the team
- Developing solutions with best practice front of mind
- Ability to interpret technical specifications
- Team player and self-starter with a positive attitude

Qualifications

Education:

- Bachelor's/Postgraduate degree, a professional qualification, or equivalent experience
- At least 1-3 years of Salesforce development experience

Core Competencies:

- Salesforce platform configuration and customization
- Salesforce product knowledge (preferred with Financial Service Cloud)
- Experience implementing Apex (classes and triggers), Lightning Web Components and Visualforce to extend Salesforce to support business requirements and priorities
- Assist with each release cycle to implement and deploy new/updates to existing applications and code.
- Experience with MuleSoft API's and data mapping
- Experience with code deployment from one environment to another and version control using GitLab or similar code repository platforms for DevOps capabilities

Education	• Bachelor's/Postgraduate degree, a professional qualification, or equivalent experience • At least 1-3 years of Salesforce development experience
