|----------------------------|---|
| <b>Job Title</b>           | Information Security Analyst  |
| <b>Short Description</b>   | <p>Do you want to be part of a dynamic institution that is one of the fastest growing credit unions in the country? Become a part of the First Florida Credit Union team where our employees create a culture that enables our organization to be among one of the 100 Best Companies to Work For in Florida as designated by Florida Trend magazine for 2013, 2014, 2015, 2017, 2018, 2019, and 2020. Our employees are the critical element in fulfilling the First Florida Credit Union mission of being a thriving credit union creating value for members by deepening relationships with current members and engaging with potential members.</p> <p>Also, First Florida Credit Union recognizes the importance of benefits that provide financial security for our employees and their families and is committed to providing a competitive benefits package to eligible employees.</p>  |
| <b>Full Description</b>    | <p>Responsible for providing an active defense of the credit union's assets through security operations monitoring, vulnerability assessment, and remediation of security related events and incidents. Assist with design, implementation, documentation, and improvement of credit union security controls and processes.</p> <p>Perform day-to-day security operations, including data protection, network monitoring, endpoint monitoring, and log analysis. Investigate abnormalities, anomalies, events, and incidents detected; escalate as appropriate.</p> <p>Document any actions taken as part of investigations, control reviews, vulnerability remediation outcomes, or other duties assigned. Escalate any identified defects, gaps, or inefficiencies to management.</p> <p>Analyze asset vulnerabilities, report vulnerability results to asset owners, and track remediation outcomes; escalate as appropriate.</p> <p>Assist in the management of security technology processes and solutions, which includes endpoint protection, vulnerability management, content filtering, and intrusion detection systems.</p> <p>Develop automated solutions to simple business problems with scripting (e.g., PowerShell, python, bash).</p> <p>Assist with educating credit union staff on recognizing, responding, and reporting security incidents involving threats to information systems or unauthorized attempts to obtain member information.</p> |
| <b>Education</b>           | (1) A two-year college degree, or (2) completion of a specialized certification or licensing, or (3) completion of specialized training courses conducted by vendors, or (4) job-specific skills acquired through an apprenticeship program.  |
| <b>Additional Comments</b> | Experience & Skills required: One year to three years of similar or related experience. Must possess strong analytical skills along with effective written and oral communications. Must have high attention  |

to detail and possess a friendly and professional demeanor.
